TUESDAY MORNING FEB. 28, 1960. The editor of the Journal has been anx ous to make out a difference between the Territorial bills of 1850, and that of 1854. All power of legislation, consistent with the Con itution, was given in the bills of 1850, but then there was also this other provision: "ALL THE LAWS PASSED BY THE LEGISLATIVE AS SEMBLY AND GOVERNOR SHALL BE SIMMITTED TO THE CONGRESS OF THE UNITED STATES, AND.

P MISAPPROVED, SHALL BE NULL AND OF NO

Here Congress reserves a voto power on the legislation of the Territories of Utah and New Mexico; but no power to pass any laws a Ter ritory may omil to pass. Congress reserves no power to veto any law passed by Kansas or Nebraska. This same clause was originally in the bill organizing these Territories; but as it was inconsistent with the purpose-to leave the people of the Territories perfectly free to manago their own domestic affairs it was form ally stricken out. The bill of 1851 was passed by the same party, and by the same men, for the most part, that passed the bills o

This reserved veto power was no part of the policy of the legislation of either period. It had been in previous Territorial bil's, and was not omitted or noticed in 1850. To exclude the whole subject of slavery from Congress was the avowed object of the legislation of boil periods, so often repeated that no one can mis take it. The advocates of the policy could not, therefore, expect or intend to drag the subject into Congress again, by attempting to overrule Territorial legislation on this sub-

s immaterial. If Congress has the power to egislate for an organized Territory, it can't part with that power; no matter whether it is eserved in terms in the organic law or not; has not the power, the assertiou of it wil

The editor of the Journal, however, feel happy in the assertion that-

"Monstrous heresy!" We have here one o e stereotyped adjectives of the editor. He has exhausted the dictionary in epithets upon quatter Sovereignty - monstrous' odious pathsome! abominable! All this artillery of

words he has hurled at a shadow! We don't see, for our part, why we should e horror-stricken at the assertion of the right of a Territory to make its own laws upon its wn domestic affairs, without the interference f Congress, when every Territory exercises the right, and Congress does not interfere, and on the subject of slavery is so constituted that

New Mexico has established slavery by lave code. A movement will be made in the Lower House of Congress to repeal this a dec but it will not succeed. Kansas has passed an nel prohibiting slavery. The Gov ernor appointed by the President could no The se Natra v (-1 v v (e Pat o e Pat o e Pat o e Pat o e prevent its passing. A movement will not be a movement will ever be made in Congress to repeal this perhaps, be made in Congress to repeal thi et; but it will not succeed. New Mexico and Kan-ne will, therefore, be just as free on this subject as if there were no Congress. That 'monstrous' heresy is a practical fact now, and it will remain so. The Territories can pass any act they please on the subject o slavery, and execute it, unless the Courts de

clare it null and void. Now, why is not the editor awfully shocked and amazed, and appalled at this practical de velopment of Squatter Sovereiguty with no power to control it. When we look over the political arcua, we see there is no possibility of change. The Black Republican party in the free States will repeal the laws of New Mexico, | The country will understand it too well. if they can get the power they struggle for ut there is no party in the free States that PIANO-FORTE. will repeal the law Kansas has made. The Democrate will tell you that it the law be cou s'itutional, it shall stand; but if it be uncon stitutional, the Courts will pronounce it nul and void, and there is no need of Congres sional action. They will say, if the people of a Territory want slavery, they shall have it but if they do not, it shall not be forced upor

t em by Congress. So, then, as far as slavery is concerne quarter Sovereignty is king in a Territory. and there is no practical power to prevent it It is idle to s juabble about any theory. There things, which reuder Congressional power on the subject of slavery in the Territories a unl lity, whatever it may be in theory.

These politicians will quibble themselves and their readers out of common scuse with the wird sovereignly. We have Squatter Sovereignly, Congressional Sovereignly, and -we don't know how many sorts of sovereignty. But the truth is, an organized Ter ritory is about as independent as a State. Gentlemen: lu connection with the recent difficulty between Mr. Edmundson, of Virginia, and Mr. Hickman, of Pennsylvania, some extraordinary missiatements have appeared in the public papers. XXXVIth Congress-First Session. WASHINGTON, Feb. 27.—SENATE.—Mr. Davis resented a memorial from the Legislature of nittee on Territories.

Mr. Seward presented petitions praying for ensions to soldiers of the war of 1812. Mr. Hale presented the memorial of Frank aborn, protesting against the order for his est, and asking that it be reconsidered. Mr. Bingham presented a petition in favor the homestead bill. Mr. Collamer intruduced a resolution that e Committee on Postoffices and Post Roads

quire into the expediency of having letters nich may remain in any postoffice undeliver thirty days, returned to their writers. Mr. Collamer advocated the resolution as researy to relieve the dead-letter office of immense amount of matter thrown upon win. The latter supported the nomination in

The resolution was adopted. Mr. Wilson gave notice of a hill to reduce he rates now paid for public printing 25 per

cent.

Mr. Brown's resolution was taken up, and
Mr. Toombs spoke. It had been asserted that
he had no right to call in question the acts of
sovereign States. As the representative of a
sovereign State, he thought he had the right, and this was the peculiarly appropriate place to call in question the acts of the confederated States. If re-lress cannot be obtained here, the tate would be thrown upon their own resources had he armigued the domestic institutions or internal affairs of any State? He had only creaigned them for intidelity to the Constituin, which they were bound by every consider-tion of good faith to carry out. He hal' harge! States with being unfaithful to their mpact and of having made a supreme law of e land of no effect. None of them denied ese charges except the Senator from lowa,

and he would show that he was wrong. The excuse given was that the law was no law. There must be an arbiter somewhere. In the ease of this conflict if the cannon is the only arabiter the Senator will know it the better.
The Senator from Wisconsin had defended the netion of his State. Now, Wisconsin had not only set aside a decree of the United States Court, but had nullified a provision of the Cou-

The provision of the Constitution in regard to the rendition of fugitives from labor, is plain beyond all cavil. There was no analogy be-tween the action of the Supreme Court of Wis onsin and that of Georgia, quoted by the Sen tor from Wisconsin. He had arraigned that tate, not on the ground that she had no right o decide upon the constitutionality of an U. S. law, but on the ground that she had violated Mr. Toombs supported his argument by co-

sing psalms to the Union, while they trample the Union under foot. Bad men, in all ages, had cried, Lord, Lord The constitutionality of the act of 17% had been attirmed by every State Court before which it had come, and the net of 1850 did not differ therefrom. He re-riewed at length and explained the acts of the Georgia Courts. The Courts of Wisconsin had asserted the supremacy of the State Courts over the Federal Courts. The decisions Courts over the Federal Courts. The decisions referred to by the Senator from Wisconsin simply asserted that the Federal Courts had no supremacy over the State Courts. Nine judges of the Supreme Court said that was a doctrine in American jurisprudence. Tho action of the Wisconsin Courts stood, in its naked deformity, without a parallel. In reply to Mr. Hake he said the ordinance of 1787 passed before this government wasformed and therefore rested on no coustitutional authority. The opinions of the early tathers were misrepresented.

Further consideration of the subject waspostponed until a week from Welnesday next.

The Senate took up the bill for granting in crea-ed pay to navy officers. Without acting apon it the Schate went into executive session during which it finally disposed of the treaty of commerce and amily with Paraguay, by ralifying it. The Mexican treaty was then read, but a general discussion of its merits was

Among the memorials presented to-day the Senate, was one from Samuel F. At a time when there is great foar that the stock of dry lumber, eash, doors, blinds, &c., will fall short, owing to the vast amount of improvements in Louisville, it will be interesting to the public to know that Alexander, I'Mis & Co., have enlarged their factory and have now on hand several million of dry lumber. ELEGANT STOCK OF MEN'S AND BOYS' CLOTHing .- J. M Armstrong, on Main, opposite the National Hotel, having returned from the East, is prepared to exhibit a most beautiful assortment of Men s and Boys' Clothing, made up in elegant style, fashionably cut, and of the most substantial material. He would call spe cial attention to his stock of Youths' and Children's Clothing, all sizes, from two years up. His assortment of Cloths, Cassimeres and Vestings is also very full and desirable. All of hir stock will bear the closest inspection, to which we ask the attention of the public.

TRUNES .- Among the places worthy of the present time, is the great trunk manufactory nd emporium of J. H. McCleary, on the northeast corner of Fourth and Main streets. His large manufactory enables him to supply trunks, valises, bonnet and hat boxes, carpet bags, bureau trunks, etc., of the very best quality, at unprecedented low prices. All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Interests. The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and simithemselves of the rare opportunities afforded Having THE CONTROL OF TOUR TRACKS, by Mr. O'Hare. To country and city merchants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to travel, whether with a small carpet-bag or a B travel, whether with a small carpet-bag or a by the first day of last October. We have since purely the same of the same to the same of mammoth trunk, need go no further than to the Great Western Trunk Factory of Mr. O'Hare.

His manufactory is a oredit to Louisville, and should meet with extensive patronage. Hundreds of workmen are employed, and thousands | H. J. PETERS of dollars weekly disbursed. As a matter of thome pride, and to subserve economy, pur-chasers will consult their best interests in pur-chasing of Mr. O'Hare.

UNHEALTHY BREAD .- In no article of food should more cautiousness be exercised than the "staff of life"-bread. In order to have it healthy and nutritious, good flour and pure yeast are necessary. Hurley's Quick Yeast is the best article in use, and in using it there is no fear of swallowing a dyspepsy with your breakfast.

Good.-A lunatic once informed a physician who was classifying cases of insanity, that he ost his wite by watching a politician, whose course was so crooked that it turned his brain If, on the contrary, he had been watching the effects of Heimstreet's Hair Restorative, he would have anved his wits and learned a curious triumph of Art over Nature. THE FACE, ROUGHNESS OF THE SKIN. &c.

The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonderful infinence.

The experience of thousands daily proves that no preparation of iron can for a moment be compared wit. it. Impurities of the blood, depression of vital energy, pais and otherwise sickly complexions undicate its necessity in simost every conceivable case. In all cases of female debtity fluor albus, holorosis, &c.) its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good apperits, complete digestion, rapid acquisition of strength, with an nunsual disposition for active and cheerful exercise, immediately follow its use.
